

Watertech has mastered the “art” of effective wastewater treatment

Wastewater treatment is more of an art than a science. When removing the same contaminants in two different facilities, the product and process “mix” used to help ensure compliance may be very different. That’s when 30 years of experience makes all the difference – to help trouble-shoot and resolve issues quickly.

Watertech provides the chemicals, equipment and services you need, allowing you to leverage one source to provide an efficient solution.

A SMOOTH RUNNING SYSTEM HAS A POSITIVE IMPACT ON:

- Maintenance costs
- Production time
- Equipment life
- Energy conservation

Watertech understands your wastewater challenges and brings 30 years of experience to help resolve issues quickly and meet increasing regulatory compliance requirements.

SERVICE. CHEMISTRY. MONITORING. ANALYTICS.

Chemicals

- Flocculants
- Coagulants
- Activated Carbon
- Antifoams, Defoamers
- Metal Precipitants
- Paint Detackifiers
- Odor Control Agents
- Polymer Solvents
- Enzymes
- Bioaugmentation
- Sludge Conditioning / Dewatering
- Grease Removal
- Lift Station Treatment

Services

- Freedom Plus Hands-Free Delivery
- Laboratory Support
- Onsite Analysis
- Microbiological Testing
- WTLINK Remote Monitoring
- System Optimization

Equipment

- Chemical Control & Feed
- Polymer Makedown / Feed Systems
