

What is the best way to break down build up from organic materials?

ZymeBac™ AP IX Liquid contains six (6) strains of Bacillus along with amylase and protease enzymes. ZymeBac™ AP IX Liquid contains a broad spectrum of microorganisms selected specifically to break down organic material such as fats, oils, grease, starches, proteins and other substrates that accumulate in drains, grease traps and septic systems.

INDUSTRIAL APPLICATIONS

- Drains
- Grease traps
- Septic Tanks
- Lift Stations
- Odor control
- Floor & tilecleaners

ZymeBac™ AP IX contains microorganisms that help break down fats, oils, grease, starches, proteins and other substrates.

KEY BENEFITS

- Broad spectrum of activity
- Works with/without oxygen present
- Works on a broad range of substrates
- Reduces solids and odors
- Safer for the environment

KEY FEATURES

- Six (6) strain Bacillus blend
- Aerobes/Facultative anaerobes
- Multiple enzyme producers
- Digests organic compounds
- All natural, and non-toxic
- Contains amylase and protease enzymes

MICROBIOLOGICAL SPECIFICATIONS

- E.Coli negative 10 CFU/g
- Salmonella negative/25 g

ACTIVE INGREDIENTS

Bacillus bacteria, Enzymes

CONCENTRATION

70 Million CFU/ml IX

PHYSICAL PROPERTIES

Tan Liquid, Odorless

STORAGE & HANDLING

Dry and Cool
(36-77°F/2-25°C)

Keep container closed tightly when not in use

SHELF LIFE

Two years when stored as recommended

PACKAGING

55 gallon drum (208.2 liters)
